

## ALPHARIM®-ROUND ROD

2534.02.

### Material:

alpharim® 1500

### Colour:

yellow

### Note:

alpharim® was specially developed for parting blocks for dies and, in addition to the required functionality, offers new safety aspects

- No brittle fracture – no risk of splintering!
- No tool damage in the event of a collision
- Full-surface shaping possible without fracture
- Easy installation

The alpharim® round bars are available in different diameters and can be cut to the desired lengths.

### Physical properties:

Surface pressure up to 12 N/mm<sup>2</sup> without permanent deformation. The material has a ball hardness of 95 N/mm<sup>2</sup> in accordance with ISO 2039-1.
